

Baby Diaper BD-600

Main Technical Data

Production speed	Up to 600 pcs/min
Production linear speed	300 m/min-max
Efficiency	85-90%
Product width (min-max)	250-380 mm
Product length (min-max)	370-600 mm
Required air pressure	6 bars
Required air flow	Approx. 6,000 NI/min
Noise	Lower than, 85 dBA

Basic Machine Features

- Full servo technology
- Electronic job change
- High quality multi-zone forming system with 2D/3D core design
- SAP/fluff ratio up to 50/50
- Core wrapping
- Stand alone unwinders
- Automatic splicing units "ZERO SPEED"
- Tension control via load cells
- Automatic web guiding systems
- Full feature product (ADL, waist band, back sheet lamination & frontal tape)
- Long life carbide die cutters
- User-friendly HMI panel
- Bi-folding system
- Advanced QCS system
- Safety measures conforming to "CE" standards

Optional Machine Features

- Low waste side panels application
- Front ears application
- QCS vision system
